

I love Air One 90.1 it is one of the only stations that is not filled with references or actual comments about sex. The morning shows these days are disgusting and not up lifting at all. Air 1 is a wonderful uplifting station that provides wonderful music and mood lifting words of encouragement. I have often turned to the station while feeling down or in a bad mood, my mood is quickly changed. i feel that air 1 is great for the public it provides us safe filtered music and DJ's that sole purpose is to help and be upliftng. It provides music that adults, children and teenagers all enjoy and are not filled with lyrics that are negative, about sex, viloance or drugs. Please Please keep Air 1 on the radio.
